

**An Introduction to The NIH Small Business Innovation Research (SBIR)/
Small Technology Transfer Research (STTR) Programs**

By

Emmanuel A. Taylor, MSc., DrPH, (NCI CRCHD)

And

Yvonne Duglas-Tabor (NCI DCB)

**Presented at The NCI CRCHD Cancer Health Disparities Summit 2004
Washington, DC
July 18, 2004**

The SPN Annual Summit – SBIR / STTR Workshop

OUTLINE

- Purpose and Objectives of the Workshop
- Introduction to the NIH SBIR / STTR Program
- Specific SBIR / STTR Interests of CRCHD/NCI
- Opportunities for the SPNs and CNs
- Effective Pre- Application Strategies
- Questions, Answers and Comments

Purpose and Objectives

- **Contact minority Institutions (and researchers) and provide promotional materials focused on specific research interests of the NCI/CRCHD and on NCI SBIR/STTR opportunities;**
- **Encourage one-on-one contacts with (minority) investigators to strengthen their understanding of NIH SBIR/STTR Programs and pre-application strategies;**
- **Encourage participation in state level SBA groups (through their state coordinators) and outreach minority programs to see how NCI could further participate in the state programs; (NCI SBIR Outreach Objective); and,**
- **Explore Opportunities for the SPNs and CNs in the NIH SBIR/STTR Programs.**

OPPORTUNITIES FOR SPNs and CNs IN THE NIH/NCI SBIR/STTR PROGRAMS

SAMPLE SPN-Funded PROJECTS

- Teaching Physicians to Communicate Effectively
- Dendritic cell immunotherapy for breast cancer
- Native Hawaiian Research Training Using the Search for Anticancer Compounds in Hawaiian Medicinal Plants
- Develop a culturally sensitive decision-aid for prostate cancer screening delivered by a peer educator and test in the Emergency Department
- African American Women's Guide to Health after Menopause
- Culturally-appropriate cancer information sites for immigrants: A proposal for development of a prototype

OPPORTUNITIES FOR SPNs and CNs IN THE NIH/NCI SBIR/STTR PROGRAMS

- Improving American Indian Cancer Surveillance
- Smoking Cessation in Latinos Using Pharmacotherapy
- Community Health Advisors and Technology – CHAT
- Information Seeking And African Americans
- Evaluation Of The Impact Of Environment And Setting On The Delivery Of A Community-based Intervention
- Computer Based Cancer Education Among Chinese Americans
- The Feasibility of Telecolposcopy in a Gynecology Clinic
- Antibodies From Aggressive and Immunogenic Breast tumors in Native Americans
- Improving Outcomes for Rural Survivors of Breast Cancer

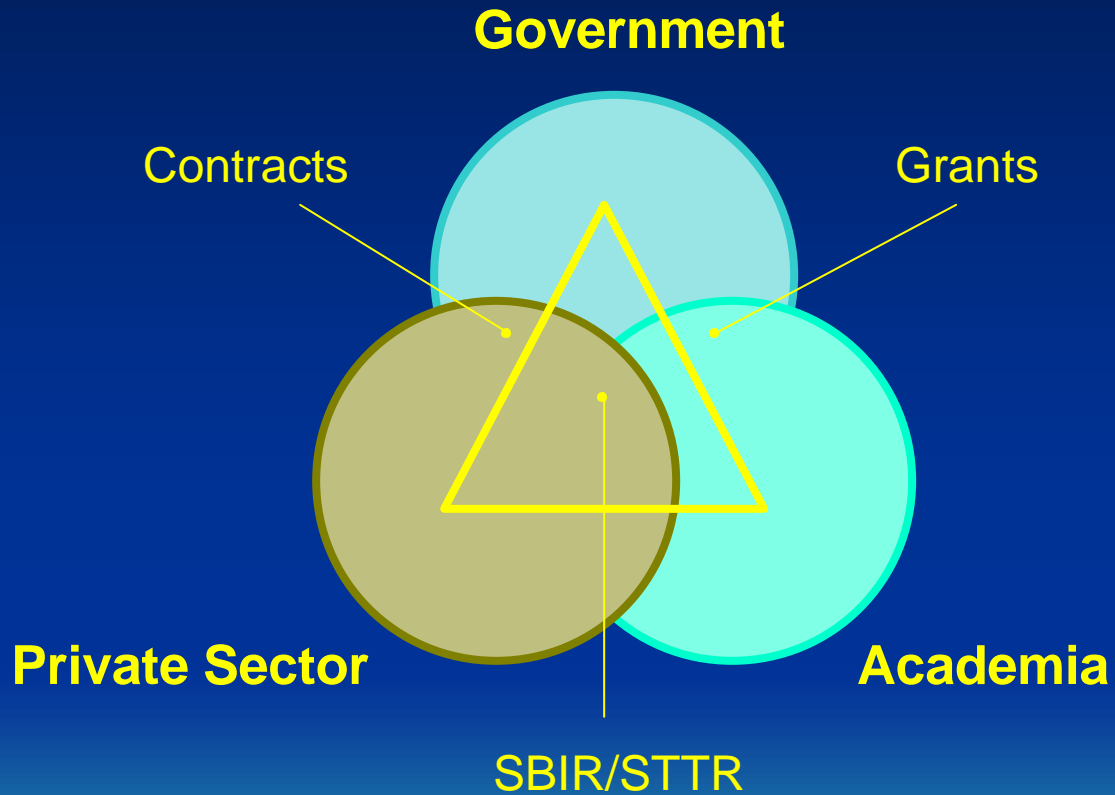

OPPORTUNITIES FOR SPNs and CNs IN THE NIH/NCI SBIR/STTR PROGRAMS

SAMPLE SPN-Funded PROJECTS (Contd.)

- Liver Cancer Prevention: Chinese- American Factors
- Evaluation of Clinical Trials Educational Material
- Web-Based Smoking Intervention for Urban Indian Youth
- Latina Breast Cancer Survivors: Informational Needs
- Mammographic Density and Genetic Admixture Among Latinas
- Promoting Education and Shared Decision Making With Regard to Prostate Cancer Screening Among African-American Men
- Development and Testing of a Tailored Patient Education Videotape on Colorectal Cancer Screening
- Electronic Aids for AI/AN Women's Cancer Screening Exams
- A Study to Develop Clinical Trials Assistive Tools

Partnership Structure – “Triangular Relationship”

*We Look Forward to
Receiving Your
SBIR/STTR
Applications !!!!*
