History of NCI's Research Grant Program

- In 1937, the [National Cancer Institute \(NCI\)](#) was created by the National Cancer Act with sponsorship from every Senator in Congress.
 - It was the first time Congress had appropriated funds toward a non-communicable disease.
 - The Act established the National Cancer Institute (NCI) as the federal government's primary agency to address research and training needs for the cause, diagnosis, and treatment of cancer.
 - The NCI was authorized to award grants to non federal scientists for research on cancer and to fund fellowships at NCI for young researchers.
- The first NCI grant was awarded on November 27, 1937 for \$27,550

OGA Grants Management Branches, cont'd

- Grants Management Specialist (GMS) assignments are organized by extramural institution - <https://www.cancer.gov/grants-training/manage-award/contacts>
- Why?
 - Facilitates an in-depth understanding of the recipient's business administration practices
 - Helps to identify any concerns with a recipient's business practices quicker
 - Develops strong collaboration between the GMS and the recipient organization
 - Minimizes the requests for duplicative institutional information and oversight at each institution

Where Does OGA Fit In?

- Funding Opportunity Announcement (FOA) Review –
 - Grant Team Leaders review draft FOA prior to publication for any grants management related concerns
 - Grants Management contact will be listed in the FOA to address any questions
- After Review (IRG & NCAB) & Funding Selection
 - GMS will contact the applicant to request additional information
 - Just in Time Information (JIT) – Cannot be more than 120 days old at the time of award
 - Any other information needed to adequately determine the capability of the applicant organization to manage Federal Funds appropriately

Where Does OGA Fit In? cont'd

- After Award Issued -
 - Questions regarding the Notice of Award
 - Terms & conditions
 - Budget
 - Period of support
- Research Performance Progress Report (RPPR) Submission -
 - Questions about:
 - due dates
 - what to include
 - how to interpret instructions
 - GMS, in cooperation with Program, will follow up with recipient to address any missing items, to clarify any inconsistencies, etc.

Where Does OGA Fit In? cont'd

- Prior Approval requests – must go through Authorized Organization Representative (AOR) for submission to NCI
- Examples of common Prior Approval requests:
 - Significant reduction in effort for PI and/or Senior/Key Personnel
 - Changes in scientific Scope – Change in Human or Animal subjects use, modified aims, etc.
 - Carryover of unobligated balances – for awards that do not have automatic carryover authority
