

Yun-Xing Wang, PhD

Center for Structural Biology
NCI Frederick

Words to live by...

Whenever one encounters a seemingly insurmountable obstacle, it's an opportunity for well-prepared minds to explore and shine

What is your favorite thing about working at NCI?

Freedom to explore and opportunities to contribute for the betterment of human kind.

In my spare time, I enjoy...

- Jogging
- Biking
- Reading

My favorite traditions/holidays...

Respect elders and a good work ethics; Moon holiday when a family gathers together just for simple moon cakes under a full moon
