

Eugene P. Alforque

Postbaccalaureate
NIH Campus, Bethesda

Education

B.S., Chemical Engineering, University of California San Diego

Scientific Interests

- Bioengineering
- Translational Research
- Drug Development
- mRNA Therapeutics

I applied to iCURE because...

I applied at iCURE for the chance to help with translational research at the NCI, and also for the career development support that iCURE offers. I was also interested in their focus on promoting diversity and learning more about health disparity centered research.

My favorite traditions/holidays...

My favorite tradition is playing Loteria on Christmas with my family

My hometown is...

I was born and raised in Camarillo, a town in SoCal. I've lived in California all my life until I moved here!

In my spare time, I enjoy...

In my spare time I am usually producing music and learning about audio engineering. I love running and reading, going out for drinks with friends, and most recently throwing Kbbq cookouts.

A few of my favorite things...

- My favorite place to travel is Bohol, my parent's home island in the Philippines.
- My favorite food is nilubihang awang, which is freshwater crab and coconut steamed in banana leaves.
- I also love the manga One Piece.
